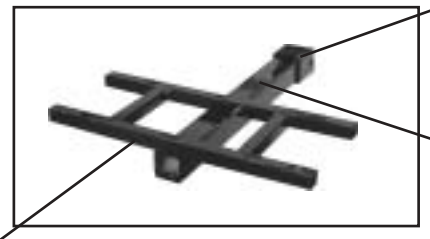
Assembly Instructions for Town & Country Bike Carrier (Read Instructions and Follow Diagram)

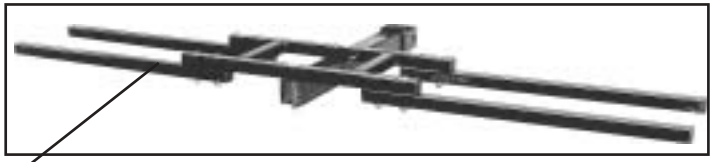
1. To begin assembly, place the 14 plastic end caps into the open ends of the square tubing.
2. Slide the 2" x 2" x 23" square tubing into the receiver hitch of your vehicle with the smaller holes on the top and bottom.
3. Place the cross bar on top of the 2" x 2" x 23" square tubing with the square bolt holes facing up and round holes facing down.
4. Align the 2 parts using the center holes of the cross bar and secure with large bolt, nut and washer, using a 1/2" wrench or socket.

Steps 2-4



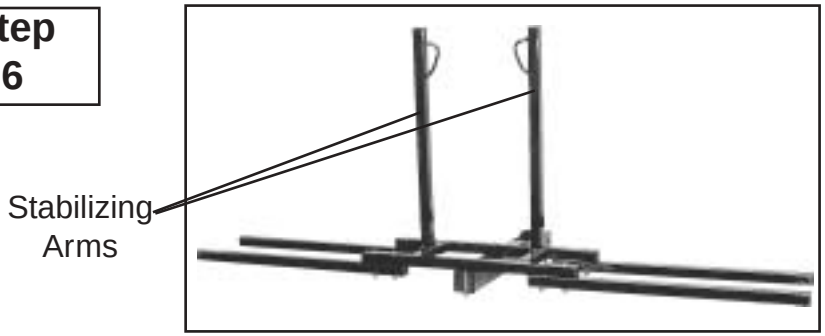
5. Align all four 1" x 1" x 23" square tubes underneath the four ends of the cross bar and secure with medium bolts, nuts and washers using a 9/16 wrench or socket.

Step 5



6. Place each stabilizing arm on each of the short arms of the cross bar. Secure with medium bolts. Exact position will be determined by the size of the bike.

Step 6



7. Place each of the tire support brackets onto each of the 1" x 1" x 23" square tubing bars.
8. Secure each tire support bracket by inserting a small bolts, nuts and washers.
9. Attach two of the straps through the loops of the stabilizing arms. Attach the other four straps to the tube where your bike's back and front tires will be placed.
